

# Warman Slurry Centrifugal Pumps Solutions 3

## Chapter 1 : Warman Slurry Centrifugal Pumps Solutions 3

The warman® and galigher® horizontal slurry pump range is one of the world's most comprehensive range of centrifugal slurry pumps for use in mining, chemical and industrial applications. Warman® centrifugal slurry pumps geho® pd slurry pumps cavex® hydrocyclones isogate® slurry valves vulco® wear resistant linings geographical footprint weir minerals has the geographical presence to service all the major minerals markets around the world. this global supply capability provides a Slurry pumping handbook – au page 6 issued: feb 2000 the centrifugal slurry pump must be designed to allow the passage of abrasive particles which can at time be extremely large. the largest warman slurry pump, for example, can pump particles up to 530mm in spherical size. slurry pumps therefore need much wider and heavier impellers to The authors acknowledge the valuable assistance from previous slurry pumping manuals produced by warman international ltd. and envirotech pumpsystems. weir slurry pumping manual iii Warman® centrifugal slurry pumps geho® pd slurry pumps cavex® hydrocyclones isogate® slurry valves vulco® wear resistant linings geographical footprint weir minerals has the geographical presence to service all the major minerals markets around the world. this global supply capability provides a Warman® centrifugal slurry pumps warman wrt the new warman ® wrt throatbush and impeller combination is a superior upgrade for your existing pump and is designed to enhance efficiency and improve wear performance warman wbh slurry pumps - preliminary selection guide approximate clear water performance - to be used for preliminary selection Warman pumps provide complete interchangeability of seal arrangements. full flush, low flow, centrifugal, or mechanical seals may be fitted to any sized pump.

Warman® centrifugal slurry pumps excellent minerals solutions sj range submersible dewatering pump. weir minerals, the global leader in slurry pumping solutions, offers a complete range of pumps for dewatering in the industry; including submersible, self priming, cantilever, horizontal, multistage, vertical
